GPCCI Profile

1. Representing the German Industry in the Philippines and fostering bilateral trade and business relations
2. Acting as the voice for its Membership and advocating for its interest
3. Providing Consulting Services and Market Entry Support

GPCCI Vision

Flexibility and constant improvement
of GPCCI's dual technical education standards and structures
in accordance to the individual needs of the industry

Objective

The development of a dualized pilot program...

- by utilizing already existing structures and improving them further
- by involving key stakeholders, such as member companies, accredited institutes or model schools and TESDA to align the model with the given structures (equivalency to high school degree and NC2)
- by following the demand of member companies, with their experience and existing cooperations to ensure a successful best practice in implementation
- by analyzing the local market in order to ascertain sustainability
- by fostering an open-door-policy

How to achieve a best practice

- Involve the companies (industry driven needs)
- Define clusters
- Agree on occupation
- Select and qualify school
- Create working groups: Occupational Supporting Committee
- OSC manages and decides on curricula, block plan, trainings for improvement etc.

→ GPCCI to acts as Vocational Training platform
