Welcome to MULAG

Company profile MULAG
MULAG Fahrzeugwerk

Today MULAG is developing and producing special vehicles and equipment for Airport Ground Support and Roadside Maintenance.

The company name MULAG is the German abbreviation of Motor Universal Lasten Arbeitsgerät and refers to the company’s origins in the field of agricultural vehicles.

Even after more than 60 years, some of these „MULAGs“ are still in use – thanks to MULAG Quality.
History
Long-term Experience with Innovation

MULAG was founded in the year 1953 through the shareholders Mr. Wössner and Mr. Huber.
Location Bad Peterstal-Griesbach

In 1955, the company grounds were built on the Stöckmatt. At that time, 17 workers and 4 employees were working for the company.
Division Airport Equipment

In 1964, the design and production of Airport Vehicles was initiated as a new division. In the beginning, conveyor belt cars were manufactured.
Further Airport Equipment Development

The division Airport Equipment was expanded by the construction of container transporters and towing tractors.
Introduction of Flow Production

Introduction of flow production for Comet airport towing tractors (in 2008: flow production for Orbiter conveyors)
Expanding the Premises

MULAG Factory II in Oppenau with additional premises
